### **Update from council officers meeting**

Chris Kenyon and Talia had attended for CI, Dan Perks and Richard Ambler for LBI.

We were given a detailed spreadsheet listing pending infrastructure projects, 23 in all.

Moped barriers – Police are pushing for the barriers and claim they are popular with residents. The council is aware of the accessibility issue. LBI plan to set up a meeting with Wheels for Wellbeing.

Clerkenwell Boulevard proposals are planned to go out for consultation in the first quarter of 2019. Building planned to start July 2020.

LB Hackney are proposing to put in protected cycle tracks along Green Lanes from Manor House to Newington Green. LBI are involved because the borough boundary runs down part of Green Lanes. There was a discussion about whether it would be preferable to have the tracks in the southern end run down Petherton Road to Canonbury station, rather than continue down Green Lanes.

A meeting with Cllr Claudia Webbe is scheduled for late October.

**Media contacts**

Chris Kenyon is happy to continue doing it. He will share responses on CI-Eng.
